

Proposed activities after the Paris agreement.

Ethiopia is one of the least developed countries (LDCs) and the fastest growing countries in the world. Ethiopia has assumed chairmanship of the least developed countries negotiation group (LDC) at the COP 22. As a country that very progressive in battling climate change we would need to contribute to the ongoing climate change negotiation. The climate change convention secretariat usually request submissions from parties as the negotiation process is a party driven process. Submissions are a very important element of sharing information, building understanding and advancing work inter-sessionally in a transparent and inclusive manner.

The portal can be used to upload information and views, including in response to new/extended calls reflecting the outcomes of the recent sessions of the Conference of the Parties, the Conference of the Parties serving as the Meeting of the Parties to the Kyoto Protocol, the Subsidiary Body for Scientific and Technological Advice, the Subsidiary Body for Implementation, and the Ad Hoc Working Group on the Paris Agreement.

At the table below are list of submissions for the May session and they have been colored in accordance with their importance.

Color code

Green – important

Yellow – moderate

Red – not important

Agenda items not highlighted do not necessary require submission from our side but it is important to follow up and read the submissions.

SN	Body	Submission title	Deadline	Contributors
1	SBI	Periodic assessment of Technology Mechanism FCCC/SBI/2016/L.5 views on the scope and modalities for the periodic assessment	25 January
